

"I have known and worked with Jonathan for a number of years now and I have always found his work to be of the highest order. Jonathan is very approachable and helpful and is always willing to spend time discussing difficult cases, especially implant cases. I would have no hesitation in recommending Jonathan's prosthetic work."

Paul Roberts
BDS, MDentSci, DGDP(UK)
Specialist in Periodontics
Street Lane Periodontal and Dental Implant Clinic Leeds

"I have found Jonathan extremely proficient in the BPS system and most important, he is very much a 'thinking man'. He has been invaluable as part of my prosthetic team. Certainly the best prosthetic technician I have worked with since qualifying in 1984".

Dr. Christopher Tavares
Bridge Dental Clinic Derby

Delivery Service

This service is twice weekly for local collection and next day guaranteed delivery for national work.
